

RAIL SYSTEM 4000[®]

Rail System 4000 Laser

BY  **RAIL
ALIGNMENT**

90° EYEPIECE

- Set up is dramatically quicker and easier with 90° eyepiece. Laser aiming can be achieved without the user assuming awkward and uncomfortable positions in the track ballast.

POWER CONNECTION

- New Mil Spec power connector ensures a quick and positive connection every time.

LASER STABILITY

- Newly designed, High Voltage components increase output power and stability while extending life expectancy of the laser.

QUALITY

- Durable Aluminum Housing and Hermetic Nitrogen seal maintains critical component integrity in harshest environments.

RS4000 LASER SPECIFICATIONS

Power Requirements	14-10 VDC
RS 4000 Laser Kit	Weight: 9.5lbs (4.3kg)
Part Number 40605	Height: 6" (15.2cm)
	Width: 3" (7.6cm)
	Length: 26.5" (67.3cm)
